

December Newsletter 2011

For Christmas we have a great selection of Giftware for decorating your home or tree.

To further compliment your Christmas decor we also carry a wide variety of Fresh Greens, Wreaths, Garland, Door Swags, outdoor arrangements and table arrangements.

To prolong the life of your greens we recommend using Wilt Pruf, it helps to lock in and retain moisture, plus helps protect against winter winds as well as needle drop or browning.

For your live Christmas tree a product called Stay Fresh works exceptionally well to keep your tree fresh longer and reduce needle loss. Stay Fresh should be added to the water once you get your tree home and set up.

A helpful hint as well is to not place your tree near heat vents or in sunny windows. Make sure you have a fresh cut done on your tree before it's set up and placed into water. A tree may take up to a gallon of water within the first 24 hours and a quart a day after that.

Don't forget to pick up your poinsettia's in a variety of sizes and colors. Gift cards are also available for that avid gardener in your life.

*Season's Greetings from the team at Spruce it up Garden Centre,
Have a Merry Christmas and a Happy New Year.*
